

48 Voyages per Year for Over 8 Years **WITHOUT** a Contamination Claim

When you want to ensure that the cargo carried in your marine tanker is the same purity *loading as unloading*, then specify a tank coated with MarineLine®.

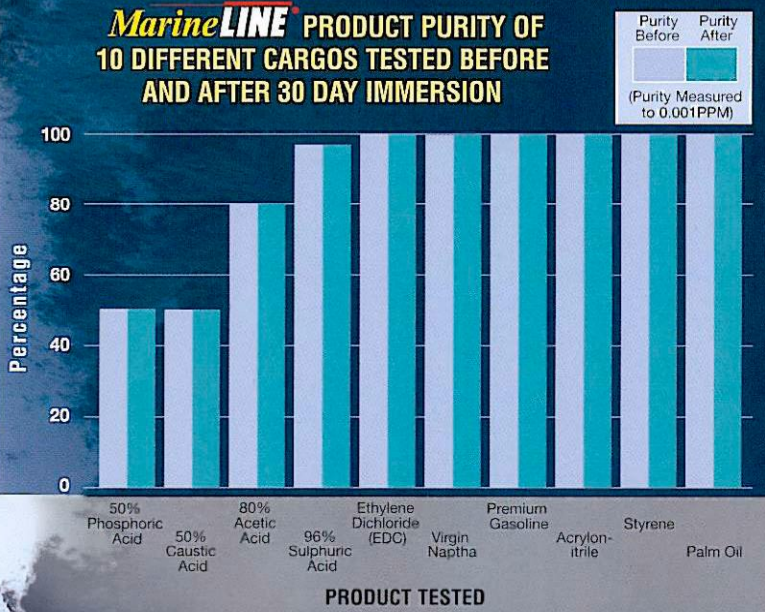

MarineLine® is now protecting the cargoes of more than 100 ships around the world.

For example, one ship has made 48 voyages per year for 8 years, carrying all these cargoes in one tank at various times, without contamination...

Acrylonitrile, Benzene, Nitro-Benzene, Phosphoric Acid, Caustic Soda, Ethyl Benzene, MEG, Ephichlorohydrine, Sulphuric Acid, Methanol, Acetic Acid, Toluene, Aniline, IPA, EDC, Ethanol, N-Butanol, Formaldaheyde, and others!

MarineLINE® PRODUCT PURITY OF 10 DIFFERENT CARGOS TESTED BEFORE AND AFTER 30 DAY IMMERSION

Tests certified or performed by DNV, Verwey Labs and other independent labs.
